

 SPEAR-UK Ltd	QUALITY MANUAL SECTION 4.8 PRODUCT AUTHENTICITY Organic Policy	Issue Date	23/04/2026
		Revision No.	001
		Page	1 of 1
		Revised Date	23/04/2026
		Issuer	GF
		Authorised By	NSR

SPEAR-UK is committed to maintaining the integrity and authenticity of all organic products traded through our business. As an agents and brokers operation, we ensure that all organic products are sourced, handled, and sold in full compliance with recognised organic standards and certification requirements, and applicable UK/EU organic regulations.

We operate a robust system to:

- Verify that all suppliers of organic products hold valid certification
- Ensure that organic status is clearly identified and maintained throughout all transactions
- Maintain full traceability from supplier to customer
- Ensure that all documentation, including invoices and contracts, accurately reflects organic status

We do not physically handle products; however, we take responsibility for ensuring that all organic claims made within our trading activities are accurate, substantiated, and compliant.

We are committed to preventing any misrepresentation of organic products and to supporting transparency and trust across the supply chain.
